See beyond accountability, transparency, and reducing costs. Cops focus on fundamentally breaking down a police system.

Defining the process of reducing resources available to law enforcement.

What would it mean to defund the police?

Defunding the police is not an exact science in practice, community, city, county, state, or even the federal level. It can mean a range of outcomes, from simply reallocating funding to changing the framework of how police operate.

Defunding the police means fewer police in communities, no police in schools, and defunding other systems that are overly reliant on law enforcement. It is about community centered solutions to address the root causes of problems, and the harms caused by traditional policing.

What would defunding the police look like?

Defunding the police could mean less police presence in schools, communities, and other public spaces. It could mean shifting resources to community-based solutions. This comprehensive guide is historical, web-adopted, 2020 and more.

What would defunding the police not look like?

Defunding does not meanabolishing the police altogether. It means breaking down the current system and building something new that is more effective and equitable.
